

Corrigendum to Reis et al. Influence of vitamin D status on hospital length of stay and prognosis in hospitalized patients with moderate to severe COVID-19: a multicenter prospective cohort study. *Am J Clin Nutr* 2021;114(2):598–604.

In the originally published version of this manuscript, the first sentence of the Methods section was incomplete and read as follows:

This multicenter prospective cohort study was performed between 2 June 2020 and 21 July 2020 at the Clinical Hospital of the School of Medicine of the University of Sao Paulo (a quaternary referral teaching hospital) and from 22 July 2020 to 25 September 2020 at the Ibirapuera Field Hospital.

This has now been updated to:

This multicenter prospective cohort study [nested within a clinical trial (33)] was performed between 2 June 2020 and 21 July 2020 at the Clinical Hospital of the School of Medicine of the University of Sao Paulo (a quaternary referral teaching hospital) and from 22 July 2020 to 25 September 2020 at the Ibirapuera Field Hospital.
